OVERVIEW

Our camps split students into Junior (4-7) & Senior (8-12) cohorts.

Activities for the Junior cohort focus on high-energy, embodied learning, building & play. The Senior cohort explores more advanced STEM ideas, with more task & challenge based exercises.

JUNIOR PROGRAM (AGES 4-7)

- Learn about circuits & electrons
- Experiment with LEGO motors
- Test structures on an earthquake table
- Play & build with LEGO robots

SENIOR PROGRAM (AGES 8-12)

- Learn about circuits & their components
- Build real circuits with breadboards & microcontrollers
- Complete LEGO robot challenges
- Robot wars!
